

Case Study

Safe City Surat

Highlights

Delta, a pioneer in providing video wall solutions, has commissioned its state-of-the-art DLP Video wall powered with Next Gen LEDs to the first ever Safe City Project in India. Delta collaborated with Surat City Police department, Surat Traffic Education Trust and Innovative Telecom & Software Pvt. Ltd. for the Surat Safe City project. The 280 sq ft video wall in the diamond city has been installed at the command & control room of Surat Police Headquarters. With the help of Delta's Video Wall Solution, Surat Police will now be able to monitor the entire city with the blink-of-an-eye. From the entry and exit points of the city to the crowded areas of textile and diamond markets, hundreds of CCTV Cameras have been installed for this project. The Video surveillance system will help in proactively addressing any terror threat, effective traffic management and to improve safety of the city.

Technologies Used

- » 67" LED lit DLP Video wall
- » ICON Pro Controller
- » End User : Surat City Police
- » Customer : Innovative Telecom & Softwares Pvt. Ltd

Delta along with Innovative Telecom & Softwares Pvt Ltd enables 24x7 Surveillance monitoring of Surat Safe City Project with 280 sq ft DLP Video wall

“There is a need to enhance the safety and security of Surat City based on its large population and concentration of key industries, such as diamond, textile, engineering, and oil and gas,” says Mr. Rakesh Asthana, Police Commissioner, Surat City. The Surat Safe City Project is an investment designed to help ensure the safety of our people and bring a greater awareness of security amongst our citizens. This project of the government of Gujarat has been executed successfully as a Public Private Partnership (PPP) by the Surat City Police Commissionerate along with Traffic Education Trust Surat.”

Delta deployed its futuristic environment friendly LED Video wall to help Surat Police monitor the entire city of Surat, Gujarat. The video wall is driven by Delta's Icon Pro controller & wall management software which will display the coverage of the CCTV cameras installed across the city. The display solution can handle data coming from various sources including display of city map when required. City surveillance projects are becoming a necessity in large cities as there is a need to ensure safety of the public by monitoring each part of the city. It is crucial to have a central control room equipped with Highend Large Video wall solutions to monitor minute details with convenience. With the success of Surat City Surveillance project, more cities are expected to come up with video surveillance systems.

The project was inaugurated by the tech savvy CM of Gujarat Shri Narendra Modi on 18th January 2013. In his address, the CM praised the initiative taken by Surat City Police and highlighted the benefits of the technology for betterment of peoples live. He also emphasized the use of such technology & solution in other areas of public administration for improvement of services & quality of life.

Delta Displays, a division of the USD 7.1 billion Delta Group, is a pioneer in developing professional display for control room solutions for surveillance, security, traffic, command & control, utilities, process control, telecom and broadcast applications. Delta offers a wide array of display technologies including: rear projection DLP video walls with Gen2013 LED technology, super thin-bezel LCD video walls, and high resolution indoor/outdoor LED displays with a powerful & highly flexible Wall management Software suite.
